

The Flexera logo is positioned in the upper left corner of the slide. It features the word "Flexera" in a white, sans-serif font, with a trademark symbol (TM) to its upper right. The background of the slide is a dark blue gradient with a diagonal split. The upper right portion shows a glowing blue network of nodes and lines, resembling a globe or data network, set against a dark blue background with a diagonal blue stripe.

FlexNet Manager Suite 2019 R2 Resolved Issues - On Premises edition

Severity Matrix

Severity	Definition
1	A serious issue with no known workaround
2	A serious issue with an viable workaround
3	The feature is usable with moderate workaround
4	The feature is usable with a simple workaround or fix
5	The feature is usable with a simple workaround or fix, affecting few customers.

Issues are grouped by FlexNet Manager Suite release and sorted by Severity and Component.

Master Issue Number	Severity	Component(s)	Summary
IOJ-1919402	1	Inventory	The FlexNet Manager inventory import task may fail with a primary key violation
IOJ-1860967	1	Inventory, Inventory import (read/write/export)	FlexNet Manager Suite ILMT adapter may create duplicate esxi hosts due to incorrect hostname import
IOJ-1930816	1	Inventory	VMWare ESX inventory incorrectly merged after ndtrack is run on a beacon
IOJ-1988752	1	Inventory Beacon	Agent unable to upload files to beacon in environments where more than 1 beacon is in use
IOJ-1925833	1	Inventory import (read/write/export)	License reconcile fails when two clusters have same name and cluster type
IOJ-1989323	1	Inventory import (read/write/export)	IBM PVU reconcile can fail with a foreign key error on "ReconcileSoftwareLicensePointsConsumedData"
IOJ-2078233	1	Inventory import (read/write/export), Software license management	Import reconcile steps performing license transparency analysis perform slowly
IOJ-2070065	1	Remote execution	Remote execution on Unix like platforms using elevated privileges user will fail
IOJ-2072337	1	Software license management	PVU consumption figures in the compliance view are incorrect for current full-capacity
IOJ-1831999	1	Web UI	System default currency page may fail to load if too many exchange rate set
IOJ-2073349	1		Users can delete custom report folders that contain the private reports of other users
IOJ-1931025	1		Agent ID is not guaranteed to be unique in an AWS environment
IOJ-1989697	1		Importing data from App-V Standalone adapter brings the duplicate records in ImportedRemoteUserToApplicationAccess table after every run
IOJ-1833214	2	Inventory, Uploaded file importers	Inventory resolver merge devices with same name

IOJ-1921601	2	Agent	Multiple inventory agent versions may be recognized as installed based on historic installation component cache data left in place after agent upgrade
IOJ-1920907	2	Agent	Oracle Inventory may take excessive time
IOJ-1924154	2	Agent	Error installing the FlexNet inventory agent on Windows Server 2003
IOJ-1904419	2	Component installers	While upgrading to a new version of FlexNet Manager Suite, customized authentication setting in IIS is overwritten
IOJ-1996164	2	Component installers, Inventory Beacon	Auto Upgrade of Cloud Beacon incorrectly sets BeaconMode registry key to OnPremise
IOJ-1912323	2	Database	Reconcile failure executing ProcessAlertsForSoftwareTitleEvidence: INSERT EXEC failed because the stored procedure altered the schema of the target table.
IOJ-1916240	2	Database	Cannot delete an Oracle database instance when Oracle Enterprise Manager is installed on the same instance
IOJ-1995293	2	Database, Web UI	Duplicate IPs on a device in a rule cause Inventory Agent Status page to fail to load
IOJ-1824736	2	Database	Oracle instances flagged as "Not Licenseable" still consume a license
IOJ-1844757	2	Database	User-based licenses should not consume for Retired or Inactive users
IOJ-1929186	2	Hardware asset management, Web UI	Linked inventory device may not be shown when viewing asset record
IOJ-1880512	2	Integration: ILMT, Inventory, Inventory import (read/write/export)	Duplicate virtual machine records may be created importing from ILMT
IOJ-1886549	2	Integration: Other	FlexNet Manager Suite XenApp agent does not collect application inventory hosted on network shares
IOJ-1988412	2	Integration: Other	XenApp agent does not handle file paths that have parameters
IOJ-1919743	2	Integration: ServiceNow	FlexNet Manager Suite to ServiceNow export created while a Previous export is still processing
IOJ-1926003	2	Inventory	SCCM Import Fails on ReadHardDriveDetails Step With Error: "Arithmetic overflow error converting expression to data type bigint"
IOJ-1911897	2	Inventory	Active Data Guard option can incorrectly be detected as Used on a Data Guard standby instance
IOJ-1913240	2	Inventory	Oracle Partition usage based on the presence of evidence in SCHEMA_VERSION_REGISTRY
IOJ-1862311	2	Inventory	Advanced Security option does not show as used even though an instance has redaction policies enabled
IOJ-1992483	2	Inventory	Inventory devices keep being linked and unlinked from the Suite applications

IOJ-1926818	2	Inventory Beacon	Co-installed inventory beacon will only import active directory data from a domain beacon is connected to
IOJ-1878631	2	Inventory Beacon	SAPReader.exe fails when an Admin Module and Dependent SAP systems are added to the Beacon out of sequence
IOJ-1839000	2	Inventory Beacon	An unhandled exception may occur when trying to add/edit an inventory source when the Operating System language uses a decimal comma instead of a decimal point.
IOJ-1742927	2	Inventory Beacon	A child inventory beacon does not download adoption and upgrade packages completely from the parent inventory beacon
IOJ-1922424	2	Inventory import (read/write/export)	Inventory Reader may fail because of incorrect length of "CPUAffinity" field
IOJ-1869186	2	Inventory import (read/write/export)	Compliance Import may fail with foreign key constraint violation

IOJ-1928971	2	Inventory import (read/write/export)	InstalledSoftware table shows record with conflicted status between lastUsedDate and isUsed
IOJ-1996262	2	Inventory import (read/write/export)	ILMT import does not import current sub and full capacity
IOJ-1838486	2	Inventory import (read/write/export), Software license management	Change in edition/version weight may unlink manually linked applications from license
IOJ-1807313	2	Inventory import (read/write/export)	Inventory writer may fail while deleting unrequired installed filer evidence
IOJ-1924156	2	Inventory import (read/write/export)	Inventory importer may fail when writing Cloud Service Instance data
IOJ-1908251	2	Reports	When saving a compliance trend report to a PDF, there is no legend
IOJ-1807662	2	Reports	Report "Save as" loses advanced filter settings
IOJ-1904129	2	Reports, SAM for IBM	"IBM PVU License Consumption" report doesn't show "Exemption reason" for exemption by device role.
IOJ-1988646	2	SAM for IBM	PVU consumption from Oracle VM charging full-capacity
IOJ-1893975	2	Software license management	Incorrect consumption of VM host for Microsoft Server Core license
IOJ-1902908	2	Software license management	Default license configuration does not cover software installed on cloud instance
IOJ-1868156	2	Software license management	Over consumption on virtual machines on a microsoft server core bundle license
IOJ-1885199	2	Software license management	Datapump compression usage is not a reliable source of licensing evidence for Oracle version 12.1.0.1
IOJ-1882147	2	Software license management	IBM DB2 licenses consuming incorrectly over bundled licenses
IOJ-1928357	2	Software license management	License summary shows obsolete consumed IBM PVU points for the retired license
IOJ-1896162	2	Uploaded file importers	Inventory resolver does not delete ServiceComponent if it is the only component reported by oracle inventory
IOJ-1909714	2	Uploaded file importers	Oracle VMs can report under the incorrect host when using a locally installed agent on Oracle VM Server
IOJ-1921933	2	Web UI	Oracle Server Worksheet doesn't show Role-Exempted Licenses
IOJ-1873835	2	Web UI	On exporting "Raw Software Usage" report, data in the report is not inconsistent with data displayed in the UI grid
IOJ-1856850	2	Web UI	All Inventory page does not show chassis type
IOJ-1989134	2	Web UI	Discovery and Inventory Rules unable to display more than 20 Actions (and Targets)
IOJ-1992306	2	Web UI	Inventory Settings grids display multiple page controls incorrectly
IOJ-1738785	2	Web UI	Combobox in advanced filter is limited to 100 items
IOJ-1757300	2	Web UI	Attaching a document while creating a Purchase, Contract, Asset or User displays an error
IOJ-1815271	2	Web UI	Contracts with expiring terms and conditions show red bar error when custom properties are used
