# Introduction

These release notes provide information about Japanese Language Pack for FlexNet Manager Suite 2014 R3 and instructions to get you started with your installation.

## What is in Japanese Language Pack for FlexNet Manager Suite 2014 R3?

FlexNet Manager Suite Japanese Language Pack 2014 R3 provides a Japanese language interface in the web user interface.

With the Japanese language pack installed, the web user interface can be used in Japanese or English, depending on the language setting on the **User Preferences** page. You can install several language packs for FlexNet Manager Suite 2014 R3.

## License Agreement

If your company has purchased a license and signed a software license agreement with Flexera Software or an authorized Flexera Software reseller, the terms and conditions of that agreement govern all use of this software. Otherwise, use of this software, on either an evaluation or a fully-paid license basis, is subject to the terms and conditions of the FlexNet Manager “click-through” End User License Agreement, which can be found in the downloaded installation package.

If you do not agree with the terms of the applicable software license agreement, you may not install this language pack onto any of your computers or, if already installed, you must remove from all computers on which it is installed. You must also return or destroy all copies of the software in your possession.

## Installing the software

### Prerequisites

FlexNet Manager Suite 2014 R3 must be installed before you install the FlexNet Manager Platform Japanese Language Pack 2014 R3.

### Installation

To install FlexNet Manager Suite 2014 R3 Japanese Language Pack:

1. Download the FlexNet Manager Suite 2014 R3 Japanese Language Pack installer from the Flexera Software Product and License Center.
2. Execute the **FNMS\_LanguagePack\_ja-jp.exe** installer on your application server. The installer will take you through the installation steps and confirm a successful installation.

After installation, you can select the Japanese language from **User Preferences** page in the web user interface of FlexNet Manager Suite to use the web user interface in Japanese.

## Limitations

The following areas are not localized in this language pack.

## Documentation

Online help installed with the product are available only in English.

## Portal pages

This Language Pack does not provide localization for the Business Reporting Portal.
