Introduction

Flexera SaaS Manager integrates with a large group of SaaS applications, providing unparalleled business intelligence about when and how your users are interacting with the SaaS products licensed within your organization. Flexera SaaS Manager helps you discover, manage, optimize, and secure your SaaS subscriptions and identifies any unused, underused, or abandoned licenses, helping you rein in runaway spend.

New Features and Enhancements

This release of Flexera SaaS Manager includes the following new features and enhancements:

<table>
<thead>
<tr>
<th>Feature or Enhancement Summary</th>
<th>Release Date</th>
<th>Reference Number(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Updated Trello Integration Instructions</td>
<td>August 29, 2019</td>
<td>FSM-1158</td>
</tr>
</tbody>
</table>

Updated the Trello Integration Instructions, which now include the pulled user data and user access data.
Data Grid Improvements, Continued

The following screens include improved data grids to capture information such as department, location, and activity type.

- Suspicious Users
- User Activity (Last 90 Days)

These data grid improvements also offer the following sort, filter, search, and pagination capabilities:

- Export all the grid information to a CSV file.
- Filter or search through individual grid columns.
- Filter or search through multiple grid columns. For example, search all Suspicious Users for Salesforce from the Marketing department.
- Sort through the entire data grid.
- Choose number of entries per page.
- Display the total number of pages with an option to type and enter the specific page number.
- Display the total number of records with a default of 100 records per page.

<table>
