

Software Vulnerability Research Release Notes

December 2025 - Update 2

- Introduction 1
- New Features and Enhancements 2
 - Multi-Factor Authentication 2
- System Requirements 2
- Legal Information 3

Introduction

Software Vulnerability Research provides access to verified intelligence from Secunia Research, covering all applications and systems across all platforms. Prioritization is driven by threat intelligence, workflows, tickets and alerts, and describes the steps to mitigate the risk of costly breaches. You stay in control and hackers stay out. For more information, see <https://www.flexera.com/products/operations/software-vulnerability-research.html>

New Features and Enhancements

Software Vulnerability Research includes the following new features and enhancements:

- [Multi-Factor Authentication](#)

Multi-Factor Authentication

Multi-Factor Authentication (MFA) enforced for all Administrator level accounts and above. This enhancement adds an extra layer of security to protect critical user accounts across the platform. During login, administrators must provide a second form of verification such as a one-time pass code or authentication app confirmation in addition to their regular credentials. Users will be prompted to choose a two-factor authentication method (Token or SMS) during setup. If incorrect or incomplete information is entered, a validation error message will guide the user to correct the input. This enhancement prevents unauthorized access even if passwords are compromised, aligns with industry best practices, and ensures compliance with organizational security standards.

Note • No further action is required if you are already using MFA.

System Requirements

Software Vulnerability Research's user interface will resize and adapt when being used on different devices. You can access the system from anywhere using any device, such as a smart phone or tablet, running Microsoft Edge, Chrome, Opera, Firefox, Safari and mobile browsers with an Internet connection capable of connecting to <https://app.flexerasoftware.com>.

Legal Information

Copyright Notice

Copyright © 2025 Flexera

This publication contains proprietary and confidential information and creative works owned by Flexera and its licensors, if any. Any use, copying, publication, distribution, display, modification, or transmission of such publication in whole or in part in any form or by any means without the prior express written permission of Flexera is strictly prohibited. Intellectual Property

For a list of trademarks and patents that are owned by Flexera, see <https://www.flexera.com/legal/intellectual-property.html>. All other brand and product names mentioned in Flexera products, product documentation, and marketing materials are the trademarks and registered trademarks of their respective owners.

Restricted Rights Legend

The Software is commercial computer software. If the user or licensee of the Software is an agency, department, or other entity of the United States Government, the use, duplication, reproduction, release, modification, disclosure, or transfer of the Software, or any related documentation of any kind, including technical data and manuals, is restricted by a license agreement or by the terms of this Agreement in accordance with Federal Acquisition Regulation 12.212 for civilian purposes and Defense Federal Acquisition Regulation Supplement 227.7202 for military purposes. The Software was developed fully at private expense. All other use is prohibited.
