Introduction

Software Vulnerability Research provides access to verified intelligence from Secunia Research, covering all applications and systems across all platforms. Prioritization is driven by threat intelligence, workflows, tickets and alerts, and describes the steps to mitigate the risk of costly breaches. You stay in control and hackers stay out. For more information, see https://www.flexera.com/products/operations/software-vulnerability-research.html
New Features and Enhancements

This Software Vulnerability Research update includes the following:

- Support for Multiple Email Address in Software Suggestions

Support for Multiple Email Address in Software Suggestions

With this release of Software Vulnerability Research, you can now add multiple email addresses while suggesting a software. This email addresses must be separated by either a comma (,) or a semi-colon (;).

Suggest software

Multiple email address can be added in SVR web interface > Research > Suggest software > Single software / Upload File tab.
Software Suggestion Tool

Multiple email address can be added in **SVR web interface > Research > Download Software Suggestion Tool**.
