## Introduction

Software Vulnerability Research provides access to verified intelligence from Secunia Research, covering all applications and systems across all platforms. Prioritization is driven by threat intelligence, workflows, tickets and alerts, and describes the steps to mitigate the risk of costly breaches. You stay in control and hackers stay out. For more information, see <https://www.flexera.com/products/operations/software-vulnerability-research.html>

# New Features and Enhancements

This Software Vulnerability Research update includes the following:

- [Enhanced Threat Scoring](#)
- [Other Updates](#)

## Enhanced Threat Scoring

Several new rules are added to this update to improve how we calculate Threat Scores in order to help you more accurately prioritize patches based upon likelihood of exploitation. As part of this effort, many existing rules have been carefully adjusted to ensure a valuable Threat Score.

For more details, please refer to this [announcement in our blog](#).

## Other Updates

This release of Software Vulnerability Research includes the following updates:

- Five failed login attempts for accessing SVR APIs via browser will block the account. Only an Administrator has the rights to unblock such accounts.
- CSV grid export will add a single quote (') if a cell contains text which starts with one of the following special characters: =, @, |, %, to avoid any malicious code execution via macros.

## System Requirements

Software Vulnerability Research's user interface will resize and adapt when being used on different devices. You can access the system from anywhere using any device, such as a smart phone or tablet, running Internet Explorer 11 or higher, Chrome, Opera, Firefox, Safari and mobile browsers with an Internet connection capable of connecting to <https://app.flexerasoftware.com>.

## Resolved Issues

This release of Software Vulnerability Research does not include any resolved issues.

# Legal Information

## Copyright Notice

Copyright © 2021 Flexera

This publication contains proprietary and confidential information and creative works owned by Flexera and its licensors, if any. Any use, copying, publication, distribution, display, modification, or transmission of such publication in whole or in part in any form or by any means without the prior express written permission of Flexera is strictly prohibited. Except where expressly provided by Flexera in writing, possession of this publication shall not be construed to confer any license or rights under any Flexera intellectual property rights, whether by estoppel, implication, or otherwise.

All copies of the technology and related information, if allowed by Flexera, must display this notice of copyright and ownership in full.

## Intellectual Property

For a list of trademarks and patents that are owned by Flexera, see <https://www.flexera.com/legal/intellectual-property.html>. All other brand and product names mentioned in Flexera products, product documentation, and marketing materials are the trademarks and registered trademarks of their respective owners.

## Restricted Rights Legend

The Software is commercial computer software. If the user or licensee of the Software is an agency, department, or other entity of the United States Government, the use, duplication, reproduction, release, modification, disclosure, or transfer of the Software, or any related documentation of any kind, including technical data and manuals, is restricted by a license agreement or by the terms of this Agreement in accordance with Federal Acquisition Regulation 12.212 for civilian purposes and Defense Federal Acquisition Regulation Supplement 227.7202 for military purposes. The Software was developed fully at private expense. All other use is prohibited.
