

Software Vulnerability Research Release Notes

May 2025

- Introduction 1
- New Features and Enhancements 2
 - Guided Search for Groups/Users 2
 - Editable Workflow Steps 3
- System Requirements 3
- Legal Information 4

Introduction

Software Vulnerability Research provides access to verified intelligence from Secunia Research, covering all applications and systems across all platforms. Prioritization is driven by threat intelligence, workflows, tickets and alerts, and describes the steps to mitigate the risk of costly breaches. You stay in control and hackers stay out. For more information, see <https://www.flexera.com/products/operations/software-vulnerability-research.html>

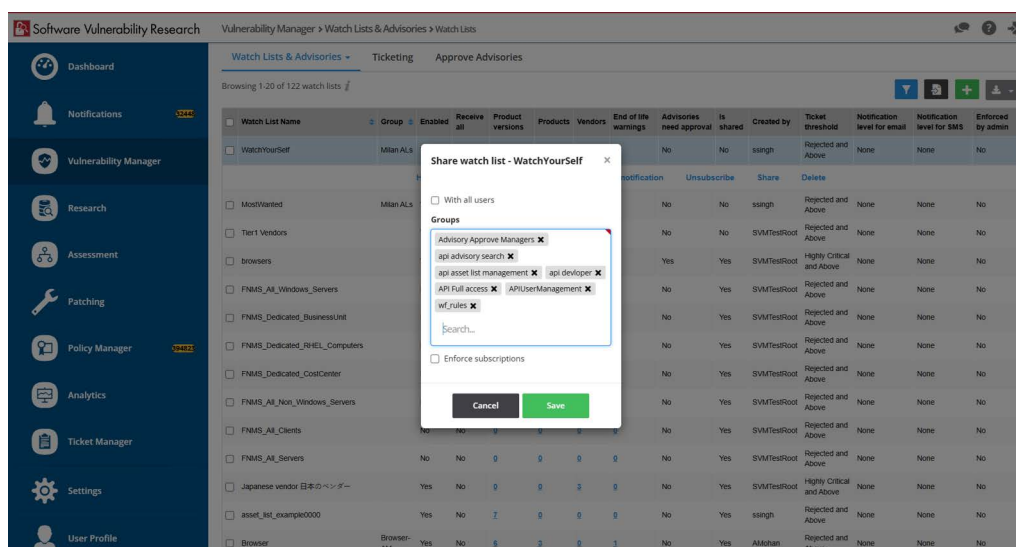

New Features and Enhancements

Software Vulnerability Research includes the following new features and enhancements:

- [Guided Search for Groups/Users](#)
- [Editable Workflow Steps](#)

Guided Search for Groups/Users

When selecting Groups or Users in the locations listed below, you can now either choose directly from the drop down list or enter keywords into the search box. Matching results will be displayed in the grid, making it faster and easier to find and select the desired group.

Modules and Locations Supporting Guided Search

Module	Location / Feature
Vulnerability Manager	<ul style="list-style-type: none">● WatchList > Share (Actions) > Groups● Ticketing > Create Ticket > Assigned to
Policy Manager	<ul style="list-style-type: none">● Add New Policy > Apply Scope > Drop down for Watchlist and User/User Group
Analytics	<ul style="list-style-type: none">● Report > Add Assessment Report > Select User Group● Report > Add Research Report > Watch Lists drop down● Report > Add Research Report > Watch Lists Group drop down
Ticket Manager	<ul style="list-style-type: none">● Edit (Action) > Assigned to

Module	Location / Feature
Settings	<ul style="list-style-type: none"> ● User Management > Create User > Groups ● User Management > User Group > Add/Edit (Action) > Roles ● VM > Add/Edit Subscription > Subscriber ● WF > Ticket Queues > Edit (Action) > User Groups ● WF > Ticket Queues > Add Ticket Queue > User Groups ● API > Add Token > User

Editable Workflow Steps

In **Settings > Workflow Management**, the **Rule Trigger** form (Step 1) is now editable. This update enables modification of workflow rules, allowing for easier adjustments and greater flexibility in managing changes.

For Example: In the Advisory Rule, modifications can be made when Watch Lists are renamed, thresholds are updated, or compliance requirements change.

System Requirements

Software Vulnerability Research's user interface will resize and adapt when being used on different devices. You can access the system from anywhere using any device, such as a smart phone or tablet, running Microsoft Edge, Chrome, Opera, Firefox, Safari and mobile browsers with an Internet connection capable of connecting to <https://app.flexerasoftware.com>.

Legal Information

Copyright Notice

Copyright © 2025 Flexera

This publication contains proprietary and confidential information and creative works owned by Flexera and its licensors, if any. Any use, copying, publication, distribution, display, modification, or transmission of such publication in whole or in part in any form or by any means without the prior express written permission of Flexera is strictly prohibited.
